

GUEST SPEAKER

AI PowerEd

Responsible AI
in Schools Summit

GUEST SPEAKER

Anthony England

Director - Innovative Learning Technologies, Pymble Ladies' College

Anthony England taught IT for 9 years in the 90s before founding a company focused on bringing school administration systems onto the web and is now the Director of Innovative Learning Technologies at Pymble Ladies College.

He is currently focussing on delivering a school AI experience platform that connects communities and bringing Wise Phones to younger students. He wears odd socks, too often speaks before he thinks, and is continually curious about what could be better in the world.
