Study in Queensland Independent Schools

Academic excellence, relaxed lifestyle

Around 2,000 international students are currently studying at an independent school in Queensland.

Queensland offers international students opportunities to excel academically while enjoying Queensland's friendly and relaxed outdoor lifestyle.

Queensland's independent schools provide international students diverse opportunities and programs for educational and cultural experiences for long and short periods of time.

Schools offer a range of support and programs that allow international students to:

- study in primary and secondary schools
- learn English in a school setting
- gain entry to university or further studies in Australia, if secondary studies are successfully completed.

www.isq.qld.edu.au

Independent schools – supportive and welcoming

A history of quality education

Independent schools offer greater choice and allow families to choose a school that best promotes the values they believe are important.

Queensland's independent schools include:

- non-denominational schools
- faith-based schools
- philosophy-based schools
- schools with programs for gifted and talented students
- schools that offer the International Baccalaureate Diploma.

Independent schools are strongly committed to:

- providing a well-rounded general education
- fostering students' moral and spiritual development
- providing students with pastoral care
- promoting discipline
- catering to the needs, aptitudes and interests of the individual student
- developing strong home-school partnerships
- achieving the best possible education outcomes for all.

Independent schools have been serving communities throughout Queensland for more than 150 years.

In Queensland, independent schools are a vital part of the school system, providing quality educational services to more than 15 percent of the state's total primary school enrolments and over 20 percent of the state's secondary school enrolments.

All independent schools are not-for-profit organisations. This means they operate in the best interests of their students, not to return a profit to owners or shareholders.

The Australian and Queensland governments both provide funding to independent schools. In return, each school must demonstrate they are well managed, and are achieving education outcomes for students.

The Non-State Schools Accreditation Board (NSSAB) is an independent statutory body established by the Queensland Government to regulate and monitor the quality of independent schools. Schools must demonstrate they are financially viable to operate in Queensland.

Choosing an independent school

It is important you choose a school that offers teaching methods and a teaching philosophy that promotes the values you feel are important.

Some factors you may wish to consider are:

- School seems right for child's individual needs
- Emphasis placed by school on developing student's sense of community responsibility
- Reputation of school
- Strong academic performance
- Range of subjects offered
- Appearance/behaviour of existing students
- Facilities, including specialist facilities for technology, science, art and sports
- Small class sizes

Parents should also consider the prospects for school leavers. International students who have successfully completed studies in Queensland independent schools are currently continuing tertiary studies in universities in Queensland, other states in Australia, and in other countries.

Once you've made the decision to study in Australia and you know where you want to study, you can enrol directly with the independent school registered on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS). If you need assistance with the school admission process, you may wish to use an education agent. International students, their families and agent are advised to check with the individual school regarding its policy on working with international education agents.

Settling into student life in Queensland

The safety and wellbeing of international students is a high priority at Queensland independent schools.

Soon after their arrival, students will meet school staff members who can help and assist them with all academic and welfare matters, including:

- orientation and adjustment to a new environment
- time management and study skills
- subject selection and careers advice
- English language and tutorial support
- extra-curricular and co-curricular activities
- advice on personal safety and wellbeing.

Details of the full range of school support services are available from individual schools.

About Us

Caloundra Christian College (CalCC) provides quality Christian education where students develop skills for life and learning. Our meticulous focus on curriculum development produces real-world STEM and skills-based benefits for local and international students alike. Teaching and learning is enhanced by an aggressively-paced building program, providing new facilities for design, VR, robotics, various technology, hospitality, art, music and primary specialist design.

Proudly small, CalCC chooses specialist partners to maximise quality and opportunities in music, dance, sporting and other enhanced academic and training pursuits. Bordered by the natural beauty of the Sunshine Coast hinterland and beaches, Caloundra boasts a growing, caring community with a strong family atmosphere, providing a safe and relaxed lifestyle.

- Curricular emphasis on real world skill demands, including robotics, engineering, design, chemistry, hospitality
- Competitive range of subjects including flexible delivery on campus
- Caloundra Music Academy, Formed Movement Dance, Optiminds, RoboCoast, Soccer, Surfing, Basketball and Futsal

We are recognised for

- Authentically Australian with only a small number of international students
- Dedicated and strategic in providing individualised learning
- A highly integrated community and a great team

Testimonials

Julia Benner

Year 10

German

The stay abroad had a big impact on my life and my personality and I am especially happy that it was CCC I chose.

I wasn't just any international student there, I was part of the class and everybody, students and teachers, welcomed me.

From my arrival at the airport to my departure and beyond that, there was always somebody I could turn to.

My host family were open-hearted and caring and welcomed me like a real family member. They took me on various amazing family trips on the weekends, or we simply had a family dinner at home and spent time together after school. I took everyone of them deep into my heart. Still today, I feel like I have a second family on the other side of the world.

Soichiro Inoue

Year 10

Japanese

My experience in Australia was not really about language, but how I live and how I think, and that's the bigger thing in my life.

The best memory is definitely going down to the beach and having barbecues and brunch with my host family in Australia – it was really great. I could learn surfing.

School study was a great challenge for me; especially, English was really hard... and also I didn't see any [Japanese] students after second semester. I made some friends, so I was fine!

About Us

Coomera Anglican College is a leading co-educational Gold Coast school; housing world-class facilities and a nurturing community where students excel from Early Learning and Preparatory through to Year 12.

- The opportunities to propel your child above and beyond what they thought possible, world-class teachers and facilities, and the personal care and attention to build confidence and resilience. We know real learning comes from relating not repeating. That is why learning at Coomera Anglican College is centred around our unique thINQ inquiry framework. Growth mindset: as a community of learners, our students and teachers incorporate the use of Visible Thinking routines, Habits of Mind and Growth Mindset concepts. This approach to learning stretches our thinking, encourages curiosity and ensures a school experience that is relevant, engaging and enjoyable
- Academies: Our Basketball, Football and Netball Academies are centres around our High Performance Centre and supporting programs to balance teamwork, world-class facilities and specialised coaching to bring the best out of every athlete. Our Music Academy is one of the College's excellence programs and begins with the opportunity for your child to learn an instrument in Years 4 and 5. There are additional private tuition classes available to all students, and they can be part of multiple groups and ensembles, access internal and external performance opportunities and build their skill in a chosen instrument with experienced tutors
- A Coomera Anglican College education will give your child the rounded skills essential for success in future study and life: articulate, independent, motivated, calculated risk-taker, imaginative, innovative, informed, ethical, global-minded

We are recognised for

Coomera Anglican College is an educational organisation that reaches beyond its duties to inspire students with its patience and brilliance. It is a place of inclusion, tolerance, and respect for differences where I do not regret spending the most significant three years of my life. CAC and its community of parents and students stood in solidarity in the face of challenges in a modern society marinated with politicisation. They offered so much support to their overseas students during the COVID-19 pandemic.

As an international student, CAC has provided me with guidance in developing a sense of respect and humility. It has also refined me as a young adult imbued with complexity, rationality, and impartial thinking.

Testimonials

Tommy Lau

Years 7–12

Hong Kong

I really enjoyed my time at Fraser Coast Anglican College (FCAC) from Years 7–12.

In Year 9 I started to choose subjects that I liked. I chose subjects that would lead to Engineering at University. The teachers at FCAC are really friendly, you can always ask them questions.

FCAC has many options for sport and extra-curricular activities. I started playing Rugby when I came to FCAC and was eventually selected to represent my region as well as my school. I was chosen to School Captain in Year 12.

I really enjoyed living with an Australian family, I felt like I was part of their family.

Francesca Savoia

Year 11

Italian

Studying at Fraser Coast Anglican College (FCAC) is the best choice if you are an international student. Not only the teachers and the international department are wonderful but also all FCAC students are really nice and friendly.

My personal experience at FCAC was beautiful. I was so lucky meeting all the Year 11 students, because I got really close to most of them. I have many nice memories from my time in Australia and most of them were made at FCAC.

If you are an international student at FCAC everyone will be nice to you and you will meet so many people, have so many nice memories so that you won't want to leave this school anymore, like I do.

Kana Fujii

Year 12

Japanese

All things I experienced are very important for me, such as studying in John Paul International College, John Paul College and homestay.

JPC is multi-cultural environment. I was very lucky that I could study with different people from various countries.

There are so many differences between the learning styles of Queensland and Japan. For example, there were only 20 students in a class; all students could own their laptop. Teachers assess students by single and group tasks, tests and presentations. I think it is a great feature to use technology for presentations.

I spent nine months with homestay families and still keep in contact with them.

Kathy Nguyen

Year 12

Vietnamese

My mother chose JPC because it is well known as a great private College where all international students are given preparation with care, and opportunities to enter the real world, like Australian students.

I was taught to develop a number of soft skills, including communication skills, time management, active involvement in class, critical thinking.

My proudest achievements were making a lot of friends and having fun while still achieving my goals and achieving academic awards and curricular awards. My best memory at JPC: Year 12 Retreat and Formal.

I loved being involved in community service activities where I was given opportunities to observe what is happening around me and in the local community.

Mina Sakamoto

Years 11–12

Japanese

I have learnt many lessons at King's Christian College. Life at King's has helped me develop a positive attitude towards my subjects because teachers are thoughtful and earnest, always keen to support students when we need help.

Also, King's provides many choices of study and pathways so students can focus on what they are interested in. For me, I did not know what I wanted to do or be in the future when I first came to King's. However, the opportunities to try different subjects gave me a clear vision of my future.

I like the warm family atmosphere which teachers and students create all together and it definitely made me feel comfortable studying, spending time with friends and growing up at King's.

Namhyun (Daniel) Kim

Years 9–12

Korean

I have never regretted my decision to study at King's Christian College since starting at King's.

Also, there was a variety of things that significantly helped me to enjoy the four years of high school such as all kinds of musical and sports activities. These activities, more importantly, have enabled numerous students including myself to develop their potentials and strengthen the friendships amongst friends.

Furthermore, the sincere care and love of all the teachers and staff toward international students like me have allowed us to more easily blend into the school's educational system.

Miaomiao (Eva) Shi

Year 11

Chinese

I am very happy that I can come to MBC. This is a very beautiful school. I have made many friends here who have helped me a lot. The teachers are also very responsible. From my first visit to MBC with my family, the image of this school is excellent, so they decided to send me here to start my high school life, then it has left a deep impact on me.

The style of study and discipline here are very good. I confirm that this is the high school life I want. MBC is a noble school in my impression. It has a strict school motto and good management of learning, uniforms, talking and deeds. When I first came to school, the school would specifically ask a buddy to help me. Now I have become good friends with her and she helps me to know many new friends.

Robin Yoon

Year 10

Korean

Hi, my name is Robin and I am a student at Moreton Bay College. I joined the school this year after attending a different school for the past couple of years. Moreton Bay has given me the chance to explore my interests and strengths further, and develop my skills while enjoying good quality teaching.

I have also met many like-minded friends that make school life even better. There are extracurricular activities that I can choose from, which means I can have many new experiences beyond just studying.

About Us

Peace Lutheran College is a Kindergarten–Year 12 co-educational day and boarding school located in Cairns.

Our smaller school environment of approximately 650 students allows for meaningful relationships to be established between students and their teachers.

Students come from a diverse range of backgrounds and cultures. We have a reputation of being inclusive, where every student is known by name and supported to be the best possible version of themselves.

Opportunities to participate in many different sports, play a musical instrument, join the Concert Band, take part in public speaking competitions, and engage in community service and cultural immersion experiences.

- Dedicated wellbeing and pastoral care system to support students both academically, socially and emotionally
- Co-curricular program includes camps, clubs and activities, music and performance, sport and fitness
- Dedicated Careers Guidance Officer to support students with university and career pathways

We are recognised for

- Multicultural, nurturing and supportive environment
- One of the top academic performing schools in Cairns
- Co-educational boarding school

About Us

Set on an outstanding campus on the northern Gold Coast, Saint Stephen's College is a Prep–Year 12, co-educational Christian school, known for leading in future-focused education. Grounded in Christian values and inclusive to all, Saint Stephen's College ensures every student is respected, heard and develops the integrity and responsibility to serve others. We call it a sense of pride.

Renowned for teaching excellence, the Saint Stephen's College team is powered by the vision to drive education forward; so every student is challenged and inspired to persevere and create their own future.

Testimonials

Michael Xuan

Years 7–12

Chinese

From 2017-2021, I spent my most precious high school years at Saint Stephen's College on the Gold Coast. It was a life-changing decision for both my family and I. During my journey at Saint Stephen's College, I met the best staff members and encountered a supportive community and friends. Education experience cultivated my personality and inspired me to be a better person. The multifarious cultural and extra-curriculum activities enriched my after-school and free time. It endowed me the chance to get in touch with different areas such as music, photography, sports and academics. I've met the most diligent, inspiring and motivated cohort, and it was them who accompanied me to overcome difficulties. I will never regret the choice to study here.

Michael graduated in 2021 and is currently studying at the University of Queensland.

Bruce Mao

Years 6–12

Chinese

Saint Stephen's College has redefined the idea of education for me. The staff aren't just here to teach; they're here to help students become their best selves. They would go through a question again and again because you didn't understand it for the first three times; they would give up their holidays arranging workshops because the exams are approaching, even commit to last-minute sessions the night before; they would grant you opportunities in fields that you never thought you have talent in.

The relationship among my peers was also welcoming; I made friends from various cultural backgrounds and in different year levels, with which I shared countless memories. I would definitely say my time at Saint Stephen's College was the best years of my life.

Bruce graduated in 2021 and is currently studying at the University of Queensland.

About Us

Sheldon College is an independent, co-educational, non-denominational school with strong values, principles and ethics which are an integral part of our College ethos. Studying at our College can provide access to exceptional educational opportunities within a supportive learning environment. Our College campus is located on 56 acres in a semi-rural setting in Sheldon, 30-minutes from Brisbane CBD.

The College was established in 1997 and is committed to providing a quality education for all students in a safe, secure, learning environment which is characterised by high standards for both staff and students in the areas of dress and appearance, behaviour and individual scholarship, and work habits.

The College boasts a comprehensive and innovative Curricular and Co-Curricular Arts Program, catering for students in Preparatory to Year 12 across all facets of Arts Education.

Students are equipped with the critical knowledge and skills necessary for participating responsibly and successfully in the world of tomorrow, while promoting mutual respect and recognising the individual worth of each person.

- 98% Of 2021 Sheldon College Graduates that applied to QTAC have been accepted into university. Additionally, 95% of 2021 Graduates received early university offers. ATAR score of 99.00+ achieved by 5% of 2021 Sheldon College Graduates, more than double the State average of 2.39%
- Over 100 co-curricular programs on offer for students
- Gifted and talented program, EAL/D support and Sports Enrichment program

Testimonials

Joyce Yan Hiu Tse

Year 12

Chinese

It is a blessing to be a student at St Hilda's School. Leaving my home town, studying in Australia, and living as a boarder with mates from all over the world were all meaningful challenges.

The boarding house became my second home. The endless support and care I have received from the boarding staff and friends has shown me the amount of compassion that this community possesses.

Getting involved in different extra-curricular activities has also allowed me to make lifelong friendships.

Rin Sugiyama

Year 12

Japanese

I loved my time at St Hilda's. There is a fantastic buddy system for new international students that makes sure you do not feel alone. I made many friends, and classes like art and drama are great for making friends.

I quickly realised that my friends are still my friends in Japan and St Hilda's is just another way to make even more friends around the world.

About Us

St John's Anglican College prides itself for the academic excellence received by the students and ranking 27th out of 300 schools in Queensland. In 2020, two students were awarded an ATAR of 99.8 and 99.7, and 27% of the Year 12s achieved ATAR 95+. Our teachers are experienced in educating students from overseas with extensive ESL background.

Our in-house high school preparation allows students to enter our school without needing AEAS or IELTS results and our program offers the opportunity for students to study Maths and Science while completing their High School Preparation Program.

In order to encourage international students to participate, a full range of college co-curricular activities are offered free of charge.

- Our programs provide international students with the opportunity to study intensive High School Preparation Courses before commencing school. A blend of ESL and mainstream teaching methods and techniques allows students to experience a self-paced learning environment
- St John's Anglican College offers a variety of sports where students aged 10–18 can represent the College at district, regional and state levels. The following sports are available: AFL, athletics, basketball, cricket, cross country, football, hockey, netball, rugby union, swimming, tennis, touch football and volleyball and water polo
- St John's STEM Institute Design Centre is an EduTech Asia award-winning educational space that is bold, flexible and incorporates technology to promote collaboration, learning and personal growth amongst its students

Testimonials

Ruisi Liu

Years 10–12

Chinese

As an international student, I have really enjoyed my journey within this community. I came here with uncertainties for my future in a foreign country, but the atmosphere here quickly built up my confidence to study in my second language and engage with members in the community.

During the pandemic, the College offered support to international students to benefit our wellbeing and the continuation of our study. The College committed to creating a welcoming environment for students from diverse backgrounds and encouraging us to build connections, establish friendships, interact daily in class, discuss questions and take part in team activities.

Xing-Ru Jin

Years 7–12

Taiwanese

During my experience at St John's Anglican college, I was fortunate enough to have experienced a caring community with a high-quality education.

Since I came to this College in Year 7, I used to be afraid of expressing my opinions as English is my second language. However, I eventually step out of my comfort zone with teachers' encouragement to participate in many extra-curricular activities, including TAS sports and Wind Ensemble. These opportunities made me feel more confident to speak in English and have given me a place to meet like-minded people.

Testimonials

Leying (Annie) Zhang

Years 10–12

Chinese

I was the international captain at St Margaret's which was unforgettable.

The wide variety of extracurricular activities for both sports and music programs at St Margaret's is remarkable. I enjoyed participating in badminton and playing the flute and piccolo in the wind symphony. What impressed me most at St Margaret's was the learning atmosphere. Teachers always tried their very best to guide and help students to sort out academic issues effectively, which made me feel more confident about my learning. During independent learning sessions, students could choose to work individually or with a group of peers. As an international student, the school community offered me a deep sense of belonging and I felt so lucky to be part of the school.

Orika Tsukamoto

Years 10–11

Japanese

I enjoy school in Australia as I think Australian people are friendly and I also enjoy Australia's beautiful weather. There are plenty of outdoor events which I love to go to, because I can meet new people and discover new cultures. Since starting at St Margaret's, I have joined the ToCH group, where I volunteer and help out disadvantaged members of the community. I have also participated in badminton with the school. I have enjoyed both of these groups.

My favourite thing about St Margaret's is the study environment. There is all manner of options for academics, sport, music, the arts and cultural groups that we can participate in and enjoy. There is also a large range of subjects which offer a global outlook. I especially enjoy Legal Studies, as I feel it's helped me to be more aware of the world around me and to be a responsible person.

Quoc

Years 10–12

Vietnamese

In a letter to the school upon his son's graduation, this father said "We want to send you our sincere thank you for the love, care and help you have given to international students and (our son) in particular. Looking at his maturity, his achievements and his enthusiasm about St Paul's teaching and learning methods, we are very happy with our choice of sending him to the school three and a half years ago. It was absolutely the right choice."

Quoc is now studying a Bachelor of Commerce at the University of Melbourne and is particularly interested in Economics and Politics.

Akari

Years 9-10

Japanese

Akari gained hugely from a one-year program at St Paul's.

"I made many friends from China, Taiwan, Korea and Australia. Of course, I still keep in touch with my friends on social networks, but it's so frustrating to not be able to talk to them face to face. Now I have so many wonderful friends from all over the world. I am really thankful to the people who made me realise how important it is to understand each other. There were lots of hardships and things that I couldn't change. However, I have changed for the better."

Testimonials

Brian Wu

Years 10–12

Hong Kong

I grew up in Hong Kong and enrolled in The Rockhampton Grammar School in Year 10. After considering many other Australian schools, my parents decided that The Rockhampton Grammar School was the best choice because of its excellent academics. RGS is located in a regional Queensland town, so there are fewer distractions compared to big cities and I can immerse myself in English. The School has many activities and sport. I was very scared in the first month because I had to communicate in English for everything which was quite stressful.

The teachers are very nice, patient and supportive. If I don't understand anything, they explain things until I fully understand. When I go back to the dormitory, my classmates also give me a lot of help. When I find it difficult to communicate, my friends use simple words, which I understand.

Saki Kato

Years 10–12

Japanese

I was fifteen when I decided to go for an adventure. I had been playing classical guitar since I was three and I had many opportunities to go overseas to attend competitions and music festivals. I realised that I needed to be fluent in an international language if I wanted to achieve my dream to be a world renowned guitarist.

I couldn't have done all of those memorable things if I didn't study at Trinity Anglican School or get generous help from staff and students. I am very thankful for everyone who supported me then and those who still do now.

I am ready and prepared for the next level of my adventure to study at the Royal Academy of Music in London, UK to become a globally renowned guitarist and am very much looking forward to my future.

Bier Chen

Years 10–12

Chinese

I came to Cairns three years ago because my father was working in PNG and we had to move closer to his work. TAS was recommended by my father's friend because it is a great school with a focus on academic excellence and good facilities. I studied for six months completing a High School Preparation Program to learn English and then started studying at TAS. I found it difficult at first but soon my English improved and so did my confidence.

Now I am in Year 12 and I really enjoy studying here. I have made a lot of friends from around the world. TAS is a fabulous stage for me to show what I can achieve and meet with the world in Cairns.

My life now is so much more relaxed like never before. I will leave knowing that I am well prepared for a successful future at a university in Australia.

Year 11

Hong Kong

My name is Joey and I am from Hong Kong. I first started studying at WestMAC when I was in Year 8. Something that helped me a lot was to get out of my comfort zone. I found I could achieve my goals if I put in enough effort. I had to overcome my shyness to start a conversation with other students, and my advice is not to stress, just do it.

Something else I think is important is to be kind to your host family. They are your family in Australia.

Yuta Yamaguchi

Year 10

Japanese

At West Moreton Anglican College everything was amazing. It was my first time studying abroad, so before I came to Australia I was nervous. However, at WestMAC I always had wonderful teachers and staff who took care of international students.

With a lot of advice, I made amazing friends and I still keep in contact with them. My English skills improved so much because my ESL class was small and I always had the opportunity to practice speaking with my teacher. In Japan we don't have a class like Design, so it was fresh and exciting to learn how to design and drawn with a specialist teacher.

About Independent Schools Queensland

Independent Schools Queensland is the peak body representing Queensland's independent schooling sector. Our more than 230 member schools are a vital part of the state's education system. Together, these schools educate more than 136,000 students, or 15 percent of Queensland's school enrolments.

Independent Schools Queensland is a not-for-profit organisation. Membership is voluntary and open to all not-for-profit non-government schools in Queensland.

Our Mission

To champion independent education and to support independent schools to serve their communities.
