GUEST SPEAKER

Lee Gurd

General Manager Corporate, Computer Alliance

Lee Gurd is a seasoned IT professional with extensive experience in driving impactful customer outcomes across Retail, Legal, Enterprise and Government sectors. Early in his career he worked extensively driving the adoption of technology in law firms before moving to retail where he developed a deep understanding of outcome-based technology solution delivery. Lee owned and operated a number of successful businesses in the UK before moving to Australia in 2016 to work in the Enterprise IT space. Known for his strategic acumen and ability to align complex organisational needs with tailored solutions, Lee has consistently delivered measurable results that enhance operational efficiency and stakeholder satisfaction.

With a proven track record in managing multifaceted projects, Lee excels in fostering collaborative environments that enable innovation and seamless service delivery. His expertise spans customer engagement strategies, solution integration, and navigating the unique challenges of government frameworks and enterprise demands.

Lee's dedication to achieving excellence is reflected in his ability to translate vision into actionable outcomes, ensuring success for clients and organisations alike.
